

ROLE DESCRIPTION: STUDENT GOVERNOR

The role and responsibilities of governors are [FE and sixth-form college corporations: governance guide - GOV.UK](#), [Instrument and Articles of Government](#) and Code of Conduct; this role description provides an overview of the role and time commitment.

Student Governors are elected for a one or two year term of office by the students of the College.

1.0 The Role of Governors and the Board

The role of a governor is to contribute to the work of the Board, to enable it to be effective in carrying out its core functions, namely:

- Setting and communicating the college's strategy and goals
- Holding the senior leadership to account for the educational performance and quality of the college, and for the performance of staff
- Exercising effective control to ensure that funds and assets are protected, the college remains solvent and legal obligations are met.

Collectively, governors contribute their skills, knowledge and professional experience to the Board (and through its committees) in a non-executive role.

The composition of the Board includes Independent Governors, Staff Governors, Student Governors and the CEO. Governors make a vital contribution to the success of the College and Student Governors offer a unique perspective of the student experience. Independent Governors come from a wide range of backgrounds, ensuring a balance of skills, lived experiences and perspectives appropriate to the needs of the College.

A governor is required to be as flexible as possible in the conduct of his or her responsibilities and duties, ensuring that the balance of oversight of the College and its business is seen as a positive contribution that does not interfere with the day-to-day management of the College (which is the responsibility of the CEO and Group Principal).

Governors make a vital contribution to the success of the College in delivering its strategic aims.

Governors have collective responsibility, but no Governor has the authority to speak or act on the Board's behalf unless specifically delegated to do so.

Governors must be free at all times to speak and act at meetings in what they believe to be the best interests of the College. They cannot be mandated by any group to express views which are not held by them personally. In other words, Governors can make a valuable contribution to the College in terms of their skills and expertise but cannot lobby on behalf of any group.

Specifically, this means that Student Governors are elected in their own right as individuals and not as 'representatives' of the student body. However, there are

circumstances which are explained in the Instrument & Articles of Government (e.g. discussions concerning senior postholders) where full participation may not be possible for the Student Governor. In these circumstances, the Head of Governance will provide advice.

The Board is accountable to its students, to the wider community it serves, and to other stakeholders and should ensure that its decision-making processes are transparent, properly informed, rigorous, and timely, and that appropriate and effective systems of financial and operational control and risk assessment and management, are established and monitored.
